

Support software: Topwin V5

for Win98/Me/2000/xp

A list of supported devices

Can support 3.3 ~ 5V the device;

Using the USB interface, power supply,

With the PC through USB universal serial port connected,

That is suitable for battery-powered notebook computer use, also suitable for desktop use;

Perfect over-current protection, effective protection and device programmer;

Check all pins, you can check out any of the pins of the contact state;

40-pin imported universal locking socket;

Plastic case, small size, light weight, low power consumption;

Software upgrade flexibility
